Plan-B IT GmbH
"IT" is not a crime

consults, services, and supports companies from small and medium sized enterprises up to international banks and national transport authorities. Beyond of standard IT services, we offer our expertise and software solutions for big data, financial services, and cloud computing. Our experts manage, operate, and improve cloud computing systems, middleware infrastructure. A risk management suite and a security paper emission workflow tool are the flagship developments of a portfolio of products for efficiency, automation, and process security.
